Dear Mr/Mrs:

As an English teacher with a solid formation. I am eager to contribute my abilities and experience to the company you run.

Given my capacity to manage and speak the language. I believe that, as an English teacher, I can help your company achieve its mission and goals.

I have taught English in Argentina for the last six years and I have gained great experience teaching children, working as tour guide and customer support.

I have dedicated myself to being an exceptional employee here in Argentina. This year I decided to look for new challenges and learn English from other work environments in order to expand my vocabulary and improve it.

My love for the language, my fluency and the thorough training acquired during these six years in Amicana make me an ideal candidate to work in this company. Since I believe that constant training is pivotal for any professional, I have been attending several workshops and courses related to languages ever since I graduated.

I am sure it would be worthwhile for us to meet. Feel free to contact me via email andradaantonella19@gmail.com.

Thank you for your time and consideration.
Sincerely.
