

LUIS MIGUEL RAMÍREZ MARTÍNEZ

LICENSED IN PHYSICAL EDUCATION

As a graduate in physical education, I am able to program, organize, execute and evaluate physical education programs, taking into account the different contexts and characteristics of the students, institutions and the workplace. Aimed at solid and ethical training that contributes to physical and mental health, as well as good sports techniques and practices; seeking to generate educational and comprehensive training processes.

The above is based on the postulates of pedagogies and supported by didactics, reflection, technologies and permanent evaluation, helping us to achieve consolidation and implement relevant strategies to promote learning in the integral development of students; as well as their quality of life. Without leaving aside the social and environmental relevance where physical capabilities are highlighted through strategies and group or individual work where students will finally be able to discover their capabilities and aptitudes to achieve the proposed goals.

Immediate boss::

Coordinator Juan Miguel Estupiñán

Star date: 01/08/2021

Completion date: 31/ 05/ 2023

Telephone: 3212859551

During these two years I had the opportunity to schedule and execute each of the classes through weekly planning in accordance with the grades and work schedule of the area. I also developed theoretical and practical teaching in team and individual sports, namely:

·Athletics: resistance tests, shot put and long jump, longitudinal jump and triple jump were worked on.

·Basketball: the regulations, types of passes, techniques, positions and strategies were worked on.

·Volleyball: the regulations, types of serves, techniques and roles of each position were worked on.

Support activities typical of Intercourse games with grades 10 and 11, with the support of refereeing in team sports such as: basketball, microsoccer, volleyball.

I also had the opportunity to work in the preschool, kindergarten, and transition grades with those who practiced and strengthened their different motor skills through dancing, games, and some activities where crawling, jogging, jumping, and walking skills were evident.
