Summary

Since I was child I knew that my passion was makeup and all about beauty. I have been doing makeup for 14 years and I have my own beauty studio where I do makeup. I am a manicurist, an eyebrow and eyelash specialist, and I do sunless tanning. I am also a professional cosmetologist, so I do facials with appliances and I sell professional products.

Career history

Makeup Artist at Memimakeup

Sep 2010 - Present (14 years)

My experience as a professional was always autonomous. I did my first professional course in 2016 and since then I have continued studying every year with different international professionals.

The most important experience in my career was have been part of the make-up staff at Lionel Messi's wedding, which was in Rosario, Argentina. I had the honor of doing makeup for the wives of famous soccer players and part of the bride's family. It was an event that gave me a great leap professionally, especially in my city. I lived In Australia for two years. The first year I worked for Inglot Cosmetics as Studio assistant. And my second year I worked under the position of Senior Beauty therapist for Hair and Beauty salon on Hamilton Island.
