PROFESSIONAL SUMMARY

Degree in Education and Physical Education Teacher with a Mention in Physical Activity in Nature and Leisure Time, Catholic University of Maule. My skills are; native English language, leadership when leading groups in activities both inside and outside the classroom to encourage collaboration and motivation among the students, responsibility for the commitments assumed and the organization of times in an optimal and effective way for everyone involved. Ability to communicate effectively with students, colleagues and representatives, allowing me to address the concerns of the moment effectively.

I stand out for initiatives such as looking for opportunities to enrich my curriculum, focusing on improving the learning experience, so that children are happy and fulfilled through new activities and approaches where they become aware of their own body and the benefits that physical activity and an outdoor life will bring to the development of their personal, social and family life. I am committed to continuous improvement and always willing to address challenges in areas where I have experience and the willingness to research to acquire new knowledge in unknown areas in order to enrich my skills as a teacher and keep up with trends and advances in education. Thus increasing my knowledge and functionality within the school environment, being a versatile teacher and passionate about the well-being of students and the educational community.

My passion for Physical Education, combined with my skills and experiences, allow me to provide my students with an enriching and safe environment for them to develop their physical and cognitive skills, promoting an active and healthy lifestyle. My commitment to teaching and learning goes beyond the classroom and encompasses the promotion of outdoor activity and the appreciation of nature.
