## PROFESSIONAL PROFILE

I am a responsible, committed, reliable, and empathetic person, with a somewhat outgoing personality and a dancer's soul. Good at handling groups and working as a team towards continuous improvement. A physical therapist by profession, with experience in treating both adults and children, currently preparing to become a massage therapist.

## WORK HISTORY

I started working at the age of 11, accompanying my mom to her job at the cruise terminal in Valparaíso, Chile, where I assisted passengers and crew until 2019. During this time, I improved my English and sales and negotiation techniques. Throughout my university years, I worked as a waitress for 6 years, as a supermarket promoter, event promoter, event dancer, and babysitter, always seeking jobs to help pay for my studies (and TRAVELS).
