ABOUT ME

With over 10 years of experience as a hairstylist and colorist, I specialize in turning the negative into something positive. Throughout my career, I've worked in some of the most renowned salons in the cities where I've lived, learning various techniques and professional tips that help me stand out in my work.

My education and training began in Buenos Aires, Argentina, and continued through Chile, Uruguay, Puerto Rico, Los Angeles, Anchorage (Alaska), and New York. These experiences have given me exposure to diverse cultures and hair types.

I believe that my attention to detail, creativity, teamwork, and customer service work in my favor. My greatest motivation is the smile and warm hug I receive at the end of every job.
