PROFESSIONAL PROFILE

I am a proactive person, an excellent teammate, organized and responsible, a set of principles and values that I acquired during my time in military service. I really enjoy learning new things, so my goal is a challenging and dynamic position where I can share my experience and at the same time add new knowledge. I am academically trained as a sports training professional with an emphasis on functional assessment, I have focused my career on learning tools that provide new experiences to students, athletes, users, etc. who are going through a sports process or who are in their first approach to the disciplines of athletics, all this mentioned accompanied by the personal experience of being athletes in the 100 and 200 meter events, whose tests give me the character, teaching methodology and approach to train athletes.
