ACTIVITIES & INTERESTS

I studied Industrial engineering at the university because I like this career, I like to control the quality of a product in a company and the steps of the process. In addition to this, I think that this career can be improved in some areas like use a different method to generate energy and recycle some materials and reuse them.

I studied Gastronomy because is a career that I am passionate about. I met it for the first time on an exchange trip I had and since that experience I have not stopped learning and improving myself in this wonderful world of cooking.

About my interests, I like to practice basketball, tennis and skateboarding. Also, I like to read, edit videos, dance and go to the movies with my friends.
