Spanish (native)

ABOUT ME

I define myself as an energetic, dedicated, hard working person who is extremely passionate for his profession. I consider myself to have a personality that drives me to always be open to changing in order to develop my knowledge and my skills. I seek new challenges that put my experience to the test, as well as my curiosity, creativity and customer service capabilities. I feel extremely qualified for this job not only for my experience in customer service and time management but also for my empathy and patience.

WORK EXPERIENCE

April 2022 - present

Atenea spa

Creator and onwner

At the same time I was meeting and gaining experience in spa centers and beauty salons. I started to create my own cabinet with a personalized environment, aromatherapy, music and all things needed to receive my customers correctly. My tasks are to provide them with a service of excellence from the time they arrive, to the time they leave and with my experience I perfected the aspects that I considered key to provide an excellence service.

May 2023 - present

Valenza Beauty center

Head of spa services

My second experience required at first my full time commitment, from time management to being in charge of personnel. Also, I had to deal with multiple types of customers, on some occasions unhappy or problematic. I was able to learn many strategies not only in facials but also to ensure a positive customer experience. I also had the chance to learn leadership and team working skills because of my position of supervisor.

May 2022 - May 2023

Sicurella Pilar

Cosmetologist and aesthetician

On my first experience in a spa I was trained to perform facial and body treatments and be in charge of time management of the procedures. On many occasions I had to tailor the treatments I had to perform depending on the customer needs. I also gained valuable experience in body massage and body protocols which was really useful for me to grow as a professional. And I also occasionally helped with customer reception.
